Internet Setup Manual for Windows XP

Step 1a

From the Windows desktop, **left-click** on the **'Start'** button in the bottom left corner. Next, **left-click** on **'Control Panel'**. If your start-menu does not resemble the picture below, see Step 1b. Once the **'Control Panel'** is open, **double-click** on **'Network Connections'**.

Step 1b

If your start-menu has been set to 'Classic Mode' it will appear similar to the picture to the left. If this is the case, **left-click** on **Settings**. Next, left-click on **'Network Connections'**.

Internet Setup Manual for Windows XP

Step 5

Choose 'Set up my connection manually' by **clicking** in the circle next to it. Then, **click** on the 'Next' button.

Step 4

Choose 'Connect to the Internet' by **clicking** inside of the circle next to it. Then **click** on the 'Next' button.

Step 6

Type 'ACCS.net' into the 'ISP Name' blank. Then **click** on the 'Next' button to continue.

Step 7

Type in the ACCS access number that is nearest to you. This number will be listed on the printed sheet you received during signup. The access numbers are also listed on our website. www.accs.net

Once you have entered the access number, **click** on the 'Next' button to continue.

Step 8

Now enter the same ACCS username and password that is listed on your signup documentation. * Remember to enter both the username and password in all lower case (small letters); it does make a difference.

Then, check all three checkboxes below. Once this is complete, **click** on the 'Next' button.

Step 9

Click on the 'Finish' button to complete the internet setup and save the new settings.
