Setting up Eudora 5.x for e-mail

Step 1

Open Eudora; Once inside of Eudora click on **Tools** at the top. Then click on **Options** at the bottom.

Step 2

After you click on tools you should see this options box. Make sure that 'Getting Started' is highlighted on left as shown. Type your full name into the '**Real Name**' blank. Then type in your ACCS supplied email address into the '**Return Address**' blank. Next, type in '**mail.accs.net**' into both mail server blanks (the Incoming and Outgoing). Finally, type in your username into the '**Login Name**' box. That's it. Simply, click on the '**OK**' button to close the options box. The first time you check mail it will ask for the password but Eudora should remember I from then on.

Free Internet Technical Support

Phone: (765) 659-4671
Email: internet@accs.net
Hours: 8a-5p Mon-Fri
